Salaar Khan

Lead Full Stack Web Developer at Cybersoft Vantage
Islamabad 44790
salaarkhan311@gmail.com
+92 304 1540073

Tech-savvy Full Stack Web Developer proficient in fundamental front-end languages and server-side languages. In-depth knowledge of Oracle, MySQL and MongoDB. Analytical and precise professional with 4 years of hands-on experience taking charge of front and back-end web development. Skillful creating servers and databases for functionality and designing and developing APIs. Hardworking collaborator with track record of superior results.

To seek and maintain full-time position that offers professional challenges utilizing interpersonal skills, excellent time management and problem-solving skills.

Willing to relocate: Anywhere

Work Experience

Full Stack Web Developer
CyberSoft Vantage - Islamabad
March 2022 to Present

• Created website layout/user interface by using HTML, CSS, SCSS, Bootstrap, Tailwind, Styled Components, Material UI, Semantic UI, Ant Designs.
• Used MEAN (Mongo DB, Express.Js, Angular, Node.Js) and MERN (Mongo DB, Express.Js, React, Node.Js).
• Used postgreSQL with typeorm and prisma.
• Created SPA using React framework.
• Used Redux, React Hooks, ContextAPI.
• Unit test implementation for the application using Jest.
• Implemented the application's CI/CD pipeline using the CircleCI and Jenkins.
• Manage code with different code version controls i.e Github/Gitlab/Bitbucket.
• Integrated data from various back-end services and databases.
• Designed REST calls using React to streamline user interface performance.
• Maintained high-level expertise in React state management strategies.
• Introduced agile methodologies and development best practices to division to enhance product development.
• Developed web platform back ends using NodeJS and Django frameworks.
• Managed efficient SQL queries and data transport.
• Authored code in Python and JavaScript within Django framework.
• Built APIs and data clients to consume APIs.
• Contributed to projects within Scrum project management environments.
• Worked with back-end developers to design APIs.
• Used NodeJS, ORM and SQL/No-SQL to develop and manage databases.
• Mentored junior members and delivered training to boost team skills set.
• Reviewed code, debugged problems and corrected issues.

Full Stack Web Developer
Fiverr
March 2019 to February 2022

• Created SPA using React Framework.
• Designed frontend using different styling libraries i.e., CSS, SCSS, tailwind, styled-components, bootstrap, material-ui, semantic-ui etc.
• Updated class based components to the modern functional components using react hooks i.e., useState, useEffect, useCallback etc.
• Designed custom hooks.
• Designed REST calls using Axios to streamline user interface performance.
• Maintained high-level expertise in React state management strategies. i.e., Redux
• Updated old code bases to modern development standards, improving functionality.
• Designed customised solutions for proposals to potential customers.
• Coded websites using HTML, CSS, JavaScript and jQuery languages.
• Built APIs and data clients to consume APIs.
• Developed server-side logic in Python and JavaScript.
• Authored code in Python and JavaScript within Django framework.
• Developed web platform back ends using NodeJS and Django frameworks.
• Integrated front-end elements into applications.
• Integrated third-party APIs from external applications into web platforms.

Machine Learning Engineer
Fiverr/Upwork
March 2019 to November 2021

• Prototyped machine learning applications and quickly determined application viability.
• Created customized applications to make critical predictions, automate reasoning and decisions and calculate optimization algorithms.
• Studied new technologies to support machine learning applications.
• Composed production-grade code to convert machine learning models into services and pipelines to be consumed at web-scale.
• Designed, implemented and evaluated new models and rapid software prototypes to solve problems in machine learning and systems engineering.
• Transformed raw data to conform to assumptions of machine learning algorithm.
• Developed advanced graphic visualization concepts to map and simplify analysis of heavily-numeric data and reports.
• Collaborated with multi-disciplinary product development teams to identify performance improvement opportunities and integrate trained models.
• Implemented and evaluated artificial intelligence and machine learning algorithms and neural networks for diverse industries.
• Estimated work hours and tracked progress using Scrum methodology.

Education

Bachelor's in Computer Science
COMSATS University Islamabad - Attock
February 2018 to February 2022

Skills

- MERN
- Redux
- MongoDB
- Git
- Javascript
- Python
- Machine Learning
- Deep Learning
- Django
- Express.js
- MEAN
- Django Rest Framework
- MySQL
- Responsive web design
- Node.js
- TypeScript
- REST
- SQL
- PostgreSQL
- APIs
- NoSQL
- Linux
- React
- Angular
- CI/CD
- jQuery

Languages

- English - Fluent
- Hindi - Fluent
- Urdu - Expert
